STAND-HF Work Breakdown

Work Breakdown: Overview

Two developers, each owning whole modules. Backend and rules only. UI is built separately and joined later.

Task-level detail: 15-work-breakdown.md

Modules

#	Module	Sub-modules	Owner	Depends on
1	**Foundation**	Project setup, database, shared contracts, CI	Dev A	nothing
2	**Login**	Login, tokens, lockout, password reset	Dev A	1
3	**Roles and permissions**	Three roles, permission matrix, site scope, guard rules	Dev A	2
4	**Admin: sites and users**	Sites, users, Central team adds investigators	Dev A	3
5	**Patient registry**	Add patient, Study ID, edit with reason, list by site	Dev A	1, 8
6	**Visits**	Baseline, 3M, 6M, save draft, complete and lock, reopen	Dev A	5, 8, 9
7	**Home screen**	Statistics, patient list, overdue visits, per-role sections	Dev A	3, 5, 6
8	**Clinical rules**	Study ID generator, due dates, validation engine	Dev B	nothing (starts day 1)
9	**GDMT**	Drug list, pillar entries, active score, incomplete reasons	Dev B	8
10	**Events**	Hospitalizations, death, major intervention (3M and 6M only)	Dev B	6
11	**Audit trail**	Append-only log, correction reason, audit view	Dev B	1
12	**Export**	CSV, scope check, download log	Dev B	6, 9, 10
13	**Offline sync** (v1.1)	Local drafts, sync queue, conflicts	Either	pilot done

#	Module	Sub-modules	Owner	Depends on
14	**Dashboards** (Phase 2)	Recruitment, missing visits, GDMT coverage	Either	pilot done

Dev A: modules 1 to 7 **Dev B:** modules 8 to 12 **After the pilot:** modules 13 and 14, whoever is free

---

What each role sees on the home screen

Section	Super Admin	Central team	Site Investigator
Study statistics	All sites	All sites	Own sites
Patient list with visit status	All	All	Own patients
Overdue visits	All	All	Own patients
Users	All	Investigators only	Hidden
Sites	All	View only	Hidden
Permissions	Yes	Hidden	Hidden
Export	Yes (TBC)	Yes	Hidden
Add patient	No	No	Yes

Open questions that block parts of this

- Numeric ranges for vitals and LVEF (Q-01)
- Login method: local, SSO, MFA (Q-02)
- Whether a user can belong to more than one site (Q-06, Q-07)
- Full audit trail in pilot or later (Q-08)
- Final drug list (Q-16)
- Visit windows (Q-17)

Work continues with placeholder values until these are answered.
